On the application of **100 HALSEY LANE, LLC** for a tennis court at 51 Pheasant Lane, a revised landscaping plan is still needed for this application. In May of 2017 there was a review of landscaping for the flag lot review, but it was not reviewed for conformance with the standards for a tennis court. The landscaping needs to meet the standards for tennis courts. Suggestions were made from the ecologist at NPV.

MOTION by S. Lemanski, seconded by A. McFarland
To **approve the applicant's request for adjournment on the application of 100 HALSEY LANE, LLC.**
On Vote: Chair, S. Lemanski, A. McFarland, P. Gilmartin, J. Clare

On the application of **LIFE STORAGE**, 3 William Place, S. Lemanski rents a storage unit from Life Storage, he pays for this and there is no need to recuse himself from the matter but was advised by counsel to state this for the record. A variance approval was obtained in November 2017. Three buildings in the front of the site will be removed and one will replace it. The excess fence will move into the site and be less noticeable from William Place. The parking has been increased to the building footprint. A memo was given to the applicant. A negative declaration was adopted tonight.

FLAG LOT LANDSCAPING

On the application of **SH 28, LLC**, 28 Gin Lane, the hedge that is there is substantial. J. Clare made a site visit and agrees. A letter from a neighbor was sent addressing the parking lot. The parking area is not on the flag lot, it is on the front lot and not part of this review.

MOTION by Chair, seconded by A. McFarland

To re-open the public hearing on the application of SH 28, LLC.

On Vote: Chair, S. Lemanski, A. McFarland, P. Gilmartin, J. Clare

Lisa Poyer submitted photos of the property. John Bennett spoke to the hedges surrounding the property. NPV report suggests that the application be approved and that the landscaping is enough. A hedge exists along the eastern property line and will be supplemented with a hedge around the parking area and there is other landscaping to be placed around the property. Mr. Bennett submitted to the file examples of flag lots and the landscaping which was provided and required by the Board.

Jeff Bragman representing neighbors has concerns, one related to this being within a flood plain area. Fill is being proposed where it is not needed, and this will impact the neighboring properties. The code requires screening and buffering – which don't mean the same thing. Impacts are possible during a storm surge. Applicants should take responsibility for the change in the property. They have indicated that fill is needed to be placed for a septic system. An engineer memo was submitted to the file. Mr. Bragman brought an engineer here today as well who has found that fill is not required to install a sanitary system. There is an outstanding issue and the applicant needs to answer whether or not fill is being brought in or not. The December memo from NPV regarding the SWPPP application stated that it lacked mapping and narratives about the over land flow and the storms. This memo was sent to Jon Fosters office, it was not sent to the PB, it was written for the SWPPP review. Mr. Bragman stated that it is the Boards

responsibility to address this in the site plan review. A storm water drainage plan is requested so that the applicant's engineer can review and calculate.

Mr. Bennett feels that this is not relevant to the plan. Storm water is not under the jurisdiction of this board according to Mr. Bennett. S. Lemanski questioned what direction the Board is supposed to take. The SWPPP is covered under the Building Dept. It is his understanding that screening and landscaping are what are covered under this review. Beau Robinson will provide an opinion to the Board regarding their responsibility with respect to review under this Section of the Village Code, the meaning of screening and buffering as it applies to review of flagpole lot review. Mr. Robinson will provide a memo explaining this to the Board. Mr. Robinson urged the Board to allow the presentation of Mr. Bragman to continue and then to decide whether or to close the public hearing. Chair stated that this is only a one family residence. Under 116-11F6, the code Mr. Bragman is quoting, and believes that it is more than just plants, he believes that the statute requires a review of impacts on adjacent parties.

S. Lemanski asked Ms. Eiseman if the screening is ok, Mrs. Eiseman agrees it meets the requirements under Flag lot review for landscaping.

S. Lemanski motion to close the public hearing.

Chair would like clarification from Mr. Robinson but suggested that the public hearing be closed because both sides have been presented.

Chair also stated that the landscaping is not the only concern in flag lots, that drainage is an issue and was discussed as well.

S. Lemanski, seconded by Chair

To **close the public hearing on the application of SH28 LLC.**

On Vote: Chair, S. Lemanski, A. McFarland, P. Gilmartin, J. Clare

J. Clare would like to have screening and buffering definitions. Mr. Robinson stated that this can be given to her even with the public hearing closed. A. McFarland wants to make sure this is still before the Board despite having closed the public hearing. Chair stated it is.

SUBDIVISIONS

On the application of **GEORGE BENEDICT**, 191 Bishops Lane, a memo dated 12/19 was given to the board from NPV. The map had needed to be revised and correct signature and monuments placed, all this has been done. A negative declaration was already done. It is recommended that the PB approve the application.

MOTION by Chair, seconded by S. Lemanski

To **adjourn the application of GEORGE BENEDICT for decision.**

On Vote: Chair, S. Lemanski, A. McFarland, P. Gilmartin, J. Clare

On the application of **83 FOWLER, LLC**, 83 Fowler Street, John Bennett is here to represent. The recommendation is to approve the sketch plan for the subdivision. There is a non-

On the application of **1616 REALTY COMPANY**, 15 Hill Street, Siyu Liu is here to represent the applicant. This was 5 stores, now it is 3 dry stores. There is a handicap bathroom for each store. There is a photo of the front showing the level that the ramp will be at for the handicap access. The sidewalk is sloped. The building line is level. The configuration at INTERMIX with the ramp is what will be used. There is no room for dry wells. This was discussed with Mr. Foster and is ok with the septic and the drainage as existing. S. Lemanski thinks a rail is needed for the handicap access. Chair asked how far the ramp comes out, this was explained in detail by S. Lemanski to him. Ms. Eiseman noted that this application is now at a point where a public hearing may be held.

MOTION by S. Lemanski, seconded by Chair
